

Easter Design and Technology competition.

Dear Parents,

As part of our Easter celebrations I am holding a D and T competition to design and make an Easter decoration with a moving part. KS1 and KS2 will be judged separately. Points will be given for planning the design on paper, constructing the design and your child's ability to evaluate their decoration.

Judging will take place on Thursday 6th April. All decorations will be displayed throughout the school and prizes will be awarded during a special assembly to give children the opportunity to show their fabulous designs to the whole school.

Thank you for your participation.

N Mosley
