

Easter Design and Technology competition.

Dear Parents,

As part of our Easter celebrations I am holding a D and T competition to design and make an Easter hat. The hat must be made from recyclable materials that would normally be thrown in the silver bin! You can use paint or crayons to colour your hat but that is all! I don't want you to visit Hobby craft and buy chicks, eggs, feathers! Your entire hat must be constructed from recyclable junk materials!

KS1 and Lower KS2 and Upper KS2 will be judged separately. Judging will take place on 16th April. All hats will be worn during a special assembly to give children the opportunity to show their fabulous designs to the whole school. Prizes will be given during this assembly.

Thank you for your participation.

N Mosley
